KRISTIINA TAM

UX/UI DESIGNER

PROFESSIONAL SUMMARY

UX/UI Designer with 7+ years of cross-disciplinary experience, including a strong background in BIM modeling and project management, adept at leveraging Revit, AutoCAD, and InDesign. Demonstrated ability to enhance project visualization and efficiency through innovative use of BIM tools, coupled with a keen eye for detail in design adherence and functionality. With skills in user experience, wireframing, and prototyping, ready to deliver high-quality, user-centric designs that exceed expectations.

PROJECTS

UMOCA Redesign
UTAH MUSEUM OF CONTEMPORARY ART

Revamped UMOCA's website through strategic redesign, utilizing Figma and various UX techniques to enhance user experience. Leveraged skills in interface design, prototyping, and user research to create an intuitive and visually appealing platform.

GiftJoy
GIFT GIVING APP

As part of a UX design project, collaborated with a multidisciplinary team to conceptualize and design GiftJoy, a gift planning application aimed at revolutionizing the gift-giving experience. Conducted extensive user research, including surveys and interviews, to understand user needs and pain points. Utilized design thinking methodologies, such as persona development, journey mapping, and iterative prototyping, to create intuitive user interfaces and seamless interactions. Incorporated feedback from usability testing sessions to refine and iterate on design solutions. Successfully delivered a user-centered product with a compelling value proposition, focused on simplifying gift planning and fostering joyful surprises.

EDUCATION

NOV 2023 - MAY 2024
Certificate, University of Utah, Salt Lake City
UX/UT Bootcamp

JAN 2014 - MAY 2018
Bachelors Science, University of Utah, Salt Lake City
Minor: Industrial Design

JAN 2012 - JAN 2014
AAs in AS, AAs, Interior Design, Salt Lake Community College

EMPLOYMENT HISTORY

OCT 2019 - PRESENT
BIM , BHB Engineers, Salt Lake City
- Implemented BIM modeling techniques, improving project efficiency by 30%
- Collaborated with multidisciplinary teams to ensure model accuracy
- Applied analytical skills to troubleshoot and resolve BIM software issues
- Enhanced project visualization, leading to more effective client presentations
- Innovatively utilized BIM tools to optimize design and construction processes
- Eager to learn and bring fresh ideas, committed to delivering high-quality work and meeting deadlines.

JAN 2018 - AUG 2019
Project Designer / Project Manager, Creative Wood Works, West Valley City, UT
- Spearheaded design and drafting of bespoke high-end cabinetry, ensuring a blend of aesthetics and functionality.
- Fostered strong relationships with designers and builders to ensure seamless integration of designs into spaces.
- Successfully managed multiple projects from inception to final approval, showcasing robust project management skills.
- Maintained strict adherence to code regulations, reflecting a meticulous and analytical approach.
- Exceeded client expectations with innovative designs, bolstering the company's reputation for quality.

EMPLOYMENT HISTORY

2017

Design Intern, Henricksen Butler

- Assisted design teams, enhancing collaboration and creativity.
- Drafted floor plans with AutoCAD, ensuring functional and beautiful interior spaces.
- Selected decorative items, maintaining awareness of building codes and inspection regulations.
- Participated in field measurements and site planning, enhancing project accuracy.
- Contributed to design projects under the guidance of a design manager, fostering a supportive and innovative learning environment.
